Michael Frankie

The Boeing Company, USA

Mike Frankie is a staff engineer in Boeing's Training Systems & Government Services (TSGS) business unit whose current assignment is Advanced New Program Development. Prior to this assignment Mr. Frankie was the Senior Manager of the TSS Technology Center responsible for the development of standard technical solutions being applied across TSGS programs in addition to Training related Research and Development activity. Previous assignments have included Program Management roles on the RAH-66 Comanche Training System, the T-38C Aircrew Trainers and AV-8B Radar Trainer system. Mr. Frankie has a background in engineering initially developing flight simulation models and progressing up to systems/project engineer for the AV-8B Night Attack training devices and the A-12 training devices. Mr. Frankie began his career at Singer-Link in Binghamton, New York developing both fixed wing and rotary wing flight models for various training systems. Mr. Frankie has been employed by Boeing (McDonnell – Douglas) since 1979. Mr. Frankie has an Aerospace Engineering degree from Parks College of St. Louis University and an MBA from Washington University. He is a graduate of the Defense Acquisition University Program Manager's course (PMT-401). Mr. Frankie is currently pursuing a Masters of Science degree in Systems Engineering at Washington University.
