

SEANET 2012 Workshop Instructors

Dr. Donna H. Rhodes

Dr. Donna H. Rhodes

Senior Lecturer and Principal Research Scientist
Massachusetts Institute of Technology

Dr. Donna H. Rhodes is a Senior Lecturer and Principal Research Scientist in the Engineering Systems Division at Massachusetts Institute of Technology. She is director of the MIT Systems Engineering Advancement Research Initiative (SEArI), with research on advanced systems engineering methods and architecting practices for systems and enterprises. She is a Past President and Fellow of the International Council on Systems Engineering. She received a Ph.D. in Systems Science from Binghamton University.

Dr. Ricardo Valerdi

Dr. Ricardo Valerdi

Associate Professor
The University of Arizona

Dr. Ricardo Valerdi is an Associate Professor at The University of Arizona in the department of Systems & Industrial Engineering. His research focuses on systems engineering and cost estimation. He is the co-Editor-in-Chief of the *Journal of Enterprise Transformation* and served on the Board of Directors of the International Council on Systems Engineering. He received a Ph.D. in Industrial & Systems Engineering from the University of Southern California.
