

System of Systems Engineering and Architecture

Speakers:

Robert Pitsko

Robert Pitsko

Stevens Institute of Technology, USA

Robert Pitsko is a systems engineer for the MITRE corporation supporting the design and development Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance systems for the US Army. Over the past 10 years, he has led several technical projects in this field and currently serves as the Technical Manager and Senior Technical Staff for Mission Command with the MITRE Corporation, based out of Aberdeen Proving Ground, MD. Robert Pitsko received his M.E. in Systems Engineering from Stevens Institute of Technology and his B.S. in Computer Science from the Pennsylvania State University. He is currently pursuing his Ph.D. in Systems Engineering, as a Doctoral Candidate, at Stevens Institute of Technology. His professional and research activities emphasize systems engineering and design with a focus on conceptual design evaluation, complex system design and system architecture, and System of Systems Engineering.
